January	<p><b>e-Waste</b></p> <p>With the U.S. nationwide conversion to digital TV looming, manufacturers of all types of electronics look for sustainable ways to help control electronic waste (e-waste), including recycling and re-use and take-back programs.</p>	November 24, 2008	December 8, 2008	October 13, 2008	<p><b>Vapor Intrusion 2009</b> San Diego, CA January 27-30, 2009</p>
February	<p><b>Air Monitoring Technology</b></p> <p>Recent advances in air monitoring technology and implications for compliance assessment.</p>	December 22, 2008	January 8, 2009	November 14, 2008	
March	<p><b>Energy Efficiency</b></p> <p>Aging facilities and the pollution equipment decisions manufacturers must face to make operations more energy efficient.</p>	January 23, 2009	February 6, 2009	December 15, 2008	
April	<p><b>State Climate Change Programs</b></p> <p>The relationship between state climate programs and multipollutant air quality management.</p>	February 23, 2009	March 6, 2009	January 16, 2009	
May	<p><b>Sustainable Energy Technologies</b></p> <p>A look at new sustainable energy technologies, including wind, solar, and biofuels.</p>	March 23, 2009	April 8, 2009	February 13, 2009	<p><b>Twenty-Eighth Annual International Conference on Thermal Treatment Technologies</b> Cincinnati, OH May 18-22, 2009</p>
June	<p><b>Annual Conference Issue Alternative Transportation Technologies</b></p> <p>Alternative transportation policies and technologies, such as electric plug-in cars, hydrogen fuel cells, hybrids, and natural gas, along with associated infrastructure issues.</p>	April 23, 2009	May 8, 2009	March 13, 2009	<p><b>A&amp;WMA's 102nd Annual Conference &amp; Exhibition</b> Detroit, MI June 16-19, 2009</p>
July	<p><b>Mercury Control Technologies</b></p> <p>Recent developments and experiences with mercury pollution control technologies, mercury monitoring, and issues surrounding disposal of coal byproducts from mercury control equipment.</p>	May 22, 2009	June 8, 2009	April 13, 2009

# 2009 CALENDAR

Issue	Topic*	Reserve Ad Space By	Art/Materials Due By	Editorial Deadline	Bonus Distribution
August	<b>Near-Roadway Health Effects</b> Using research on near-roadway effects, how new emissions control systems and fuels (e.g., reformulations of diesel; corn vs. cellulose) potentially affect human health.	June 22, 2009	July 8, 2009	May 15, 2009	
September	<b>MACT Standards</b> A look at how states are experiencing resource issues in enforcing new MACT standards.	July 22, 2009	August 7, 2009	June 15, 2009	
October	<b>Monitoring and Modeling Needs in the 21st Century</b> Current and future opportunities for obtaining three-dimensional air quality observations, on scales ranging from urban to inter-continental, to properly assess atmospheric pollution problems, and to better evaluate multiscale atmospheric models.	August 21, 2009	September 8, 2009	July 13, 2009	<b>Air Quality Modeling Conference</b> Raleigh, NC October 26-20, 2009
November	<b>Advances in Pollution Control Technology</b> Recent advances in air pollution emission control technology and implications for permitting.	September 23, 2009	October 8, 2009	August 14, 2009	
December	<b>Quantifying Sustainability</b> How to quantify progress toward sustainability, including a discussion of the various quantification methods and techniques such as life cycle assessment and the struggle of trade-offs among environmental media.	October 22, 2009	November 6, 2009	September 14, 2009

## EM's Regular Columns:

### Monthly

**Canadian Report:** Important federal and provincial environmental news from Canada.

**EPA Research Highlights:** Reports of ongoing research activities at the U.S. Environmental Protection Agency's (EPA) national laboratories.

**The Member Minute:** Each month, this page profiles a different A&WMA member to find out what makes them tick at work and at home.

**Washington Report:** The latest legislative, regulatory, and agency happenings from our nation's capital.

### Bi-Monthly

**Competitive Strategy:** Commentator Richard MacLean focuses on the key issues affecting all environmental managers.

**Inside the Industry:** An insider's look at the issues driving today's environmental industry.

**IT Insight:** A look at the world of information technology, with a focus on emerging tools and technologies for managing environment, health, and safety data.

**PM File:** You can count on this column to provide proven, actionable advice that will help you advance environmental service projects that are important to both your career and your organization's success.

### Quarterly

**ICAC Update:** The latest news and activities from the Institute of Clean Air Companies (ICAC).

**IPEP Quarterly:** Certification news from the Institute of Professional Environmental Practice (IPEP).

**IUAPPA Report:** News and highlights from the International Union of Air Pollution Prevention and Environmental Protection Associations (IUAPPA).

### Other topics frequently covered by EM include:

Clean Air Act  
 EH&S  
 Environmental Consulting  
 Environmental Justice  
 Mobile Source Emissions  
 New Source Review  
 Superfund/RCRA  
 Title V  
 Vapor Intrusion  
 Wastewater  
 Waste Minimization
