Addressing the environmental impacts on communities in the United States and around the world requires innovative and sustainable solutions guided by science. California is a global leader in environmental policy and technology, making San Francisco a unique location for the 2022 Annual Conference.

From June 27 – 30, 2022, the Air & Waste Management Association (A&WMA) will bring leading environmental scientists, practitioners, regulators, and companies to San Francisco to share the latest initiatives addressing environmental issues facing communities such as climate change, exposure reduction through innovative technology and regulatory approaches, sustainability, community monitoring, and environmental justice.

Maximize your exposure . . .

Be a part of ACE 2022 to discover innovative and sustainable solutions guided by science
2022 A&WMA Annual Conference & Exhibition
The place for connections

In 2022, San Francisco, CA will welcome environmental professionals from around the world for the Association's 115th Annual Conference & Exhibition. As the industry's leading environmental event, ACE 2022 provides unique opportunities for participants to network and share information and solutions related to the areas of environmental air quality, sustainability and resource conservation, power generation, transportation, health and environmental effects, and waste management. Our attendees are always on the lookout for new and better ways to do business and make their organizations more successful.

Be a part of it!

Who Will Attend

- CEOs, executive management, consulting/staff engineers, EH&S managers, and government regulators
- Decision-makers from the fields of environmental and waste management, and air pollution control
- Environmental agencies, policy makers, auditors, managers of emissions regulatory authorities, lawyers, and academia
- Top-level corporate executives from international corporations, privately held companies, consulting and law firms
- Government policy makers responsible for environmental regulations, policies, and enforcement, research and technology transfer, and business and economic development
- Federal, regional, and municipal government leaders looking for solutions to the environmental challenges in energy, natural resources, and infrastructure development

About the Air & Waste Management Association

The Air & Waste Management Association is a nonprofit, nonpartisan professional organization enhancing knowledge and enterprise by providing a neutral forum for information exchange, professional training and development, and networking opportunities to thousands of environmental professionals around the world in over 65 countries.

Visit www.awma.org for more information on the Annual Conference & Exhibition and browse the full listing of all of A&WMA's products, services, and programming.
Maximize Your Company’s Exposure
The exhibit hall at the 115th A&WMA Annual Conference & Exhibition is the one-stop destination for environmental technology solutions, product and service demonstrations, and visits with buyers and decision-makers from across the environmental spectrum.

The expansive exhibit hall is centrally-located at the Hyatt Regency San Francisco and is host to continental breakfasts, refreshment breaks, hands-on demonstrations, and receptions where attendees gather and meet face-to-face discovering the latest in environmental technology and innovation.

Why exhibit at ACE 2022?
• You will receive local, regional, state/provincial, national and international exposure. ACE attendees represent all U.S. states, Canadian provinces and countries across the globe.
• Attendees spend time on the exhibit floor. Activities and special events are held on the exhibit floor, including continental breakfasts, refreshment breaks, and networking receptions. These activities generate traffic and bring attention to your products and services.
• ACE attendees like what they see. Attendees keep coming back. Over 35% of attendees have been attending the conference for more than 10 years.
• Your competitors and colleagues will be there. ACE is noted by professionals as a key industry event. Service and technology firms looking to reach professionals in the industry not only exhibit, but also present technical papers, chair sessions, and network at the social events.
• A&WMA’s aggressive year-round marketing campaign. A&WMA takes advantage of every opportunity to reach out to prospective ACE attendees. We promote ACE and the exhibit hall through direct mail, social media, e-mail blasts, website updates, monthly newsletters, and advertising in other leading industry magazines and publications to recruit the participation from the industry’s top professionals.

Sponsorship Opportunities

Sponsorship at the Air & Waste Management Association’s 115th Annual Conference & Exhibition is the perfect way to show your organization’s commitment to the environment and to get your name in front of thousands of the industry’s leading professionals.

How Do Sponsors Benefit?
For optimal visibility and to gain additional recognition during the conference, take advantage of one of the many sponsorship opportunities A&WMA offers. Sponsorship is a great opportunity to build brand recognition and is an easy, cost-effective way to deliver your message to a qualified audience of professionals seeking business solutions.

Sponsorship Opportunities At a Glance
Whatever your desired level of investment, ACE 2022 offers several options that will fit your company’s budget and will give you the extra promotion for which you are looking. Sponsered events provide additional opportunities for access, networking, and recognition. Long after the conference has ended, sponsorship giveaways provide continued exposure, recognition, and visibility.

Core Benefits
All sponsorship levels enjoy core benefits including:
• Company listing with a hyperlink on the conference website
• Company description included in the final program and event app
• On-site signage with company logo where applicable
• Company logo in pre-conference communications

Each level of sponsorship includes a variety of additional exclusive benefits including:
• Complimentary conference registrations
• Recognition at a sponsored event of your choice (see below)
• Discount on your exhibit booth
• Complimentary ad in ACE Final Program
• Complimentary ad in EM Magazine
• Logo and stage recognition at Keynote Session and Honors & Awards Luncheon

Create Awareness

Drive prospective customers to your exhibit booth by taking advantage of our promotional offers.

Advertising Opportunities

**Final Program Ad** – Drive traffic and key prospects to your booth by advertising in the ACE Final Program, which is available to all conference attendees as well as posted on the A&WMA website. All exhibitors get their company description printed in the Final Program, but you can stand out by upgrading to purchase advertising space to feature your product or service.

**A&WMA Online Advertising** – Digital ads are available on the A&WMA website subpages, and additional online advertising opportunities may include banner or square ads on the technical program website and online retargeting campaigns on major national websites.

**EM** – *EM*, A&WMA’s premier magazine for environmental managers, keeps readers abreast of important developments throughout the year with coverage of regulatory changes; EPA and Environment Canada Research; new technologies; market analyses; environment, health, and safety issues; new products; and more. Advertise in EM leading up to ACE and reach the thousands of decision makers and qualified buyers that read each issue.

**Quarterly EM Plus (printed) and Monthly Electronic Member Newsletter** – A&WMA’s dedicated member communications offer highly targeted, affordable options for generating traffic to your website and reaching your target audience. Let your customers know that you will be at ACE 2022 with an ad that includes your booth number and a link to your company website.

**Package Pricing** – We have a variety of advertising packages that will meet your budget and fulfill your advertising goals. Contact Jeff Schurman at jschurman@awma.org; 412-904-6003 to find out more or to create a customized package for your company or organization.
San Francisco is more than just a beautiful place to visit – it is one of the greenest cities in North America. It is considered a global powerhouse on the eco-scene. In terms of cleaning up the environment, San Francisco is leading the way when it comes to proper disposal of waste, eco-friendly buildings, air quality, carbon emissions, transportation, and land use.

San Francisco eco facts:
- A record-breaking 77 percent of its municipal waste is recycled.
- San Francisco was not only the very first American city to prohibit the use of plastic bags; but they also implemented the use of reusable totes, compostable bags, and bags made from recycled material.
- San Francisco has admirably diverts more than 1.6 million tons of waste from its landfills annually, which equates to more than double the weight of the Golden Gate Bridge.
- In December 2014, President Barack Obama recognized San Francisco as a Climate Action Champion due to the city’s unwavering devotion and leadership concerning climate change initiatives.
- Walk Score, the leading analysts of travel data, awarded San Francisco second place on the list, “Top 10 US Cities to Travel Car-Free.” In fact, more than 43,000 Bay Area residents use a bicycle as their primary means of commuting to work every day. More than one-tenth of the city’s commuters walk to work.
- The Green Taxi Law forced cab companies to reduce their greenhouse gas emissions to below 1990 levels. More than 60% of the city’s taxis run on alternative fuel. The city’s buses are even powered by biodiesel fuel.
- San Francisco was honored as the Greenest City in the US and Canada Green City Index and the Cleantech Capital of North America in 2012.
- In the 2015 Travelers’ Favorites Awards, Gogobot.com named San Francisco the number three destination in the United States and the number five destination in the world.

Did you know?
- San Francisco is built on 43 hills.
- There are 45 historic street cars and 8.8 miles of cable car track.
- The famous Golden Gate Bridge is 1.7 miles long and an average of over 40 million cars traverse it every year.
- San Francisco has 39 piers and 7.5 miles of waterfront.
- There are more than 200 parks and 8000 restaurants within a 15-mile radius.

There are plenty of attractions to complement your visit to San Francisco for ACE 2022!

Make your plans to be there today.
