# All About ACE

The Annual Conference of the Air & Waste Management Association

AIR & WASTE MANAGEMENT  
ASSOCIATION

Visit [www.awma.org/ACE2019](http://www.awma.org/ACE2019) to learn more

The most comprehensive conference dedicated to everything environmental, the Air and Waste Management Association's Annual Conference & Exhibition welcomes 1,500 professionals who gather from around the world each year to foster their common goal of advancing the environmental industry in a neutral forum.

With a broad to laser focus, ACE has something for everyone looking to learn, share, and connect with others in the industry that no other conference can offer.

**Technology** – ACE is the place where researchers take the podium to present their latest findings and companies share their hottest new equipment on the exhibit floor. New product demonstrations and ground-breaking findings are revealed, shared, and reviewed in an open, neutral forum with the aim to connect practitioners with solutions.

**Information** – Whether it's new regulations, the new Administration, or new connections, the technical program covers the latest topics in the industry. Experts from government, industry and academia provide the opportunity to turn information into knowledge and solution that you can use every day in your work.

**Education** – The conference offers an opportunity to acquire in-depth knowledge and earn continuing education credit through courses and technical sessions. Students can learn and gain experience by presenting a paper, poster, or through participating in the Environmental Challenge International competition, career panels, mentoring, and networking sessions.

**Opportunities** – With such a vast offering of information, education and networking that the A&WMA Annual Conference offers, sponsors, exhibitors, and delegates may all have different reasons for choosing to attend or support the event. They all have a common outcome—a multitude of opportunities that can be created from the collection of thousands of professionals all in one place at one time with one common goal.

**Take advantage of all of the opportunities that A&WMA ACE can offer you, your company, and your career.**

## Winds of Change: Environment, Energy, & Health

The world is facing numerous challenges with regard to the environment, energy and health. More specifically climate change is considered by many as "the global threat of our time". For the first time since its inception in 1907, the Air and Waste Management Association (A&WMA) will meet in Quebec City,

Quebec, Canada, for the 112th Annual Conference & Exhibition. With the theme "Winds of Change – Vents de changement", ACE 2019 will be an exceptional opportunity for all experts, researchers, young professionals, students, industries and stakeholders to exchange and propose new ways to deal with environmental, energy

and health issues. As a compliment to the technical program for ACE 2019, Oil Sands in Canada will be the topic of the Critical Review and a specific track of the conference will be dedicated to alternative energies, including the growth of electric vehicles.

So close, so Europe, Quebec City is the only walled city in North America. The acknowledged charm and distinctiveness of Quebec City, l'accent d'Amérique, offers a blend of modern buildings with many historical characteristics like fortifications, Château Frontenac, Parliament Buildings, St-Lawrence River, the Port, etc. Surrounded by nature's majestic beauty, the city provides

the benefits of modern urban living in a safe, peaceful environment. Moreover, ACE 2019 will take place during one of the best weeks to visit, with June 24 being the National Holiday in Quebec.

**Join us at ACE 2019 in Quebec City from June 25-28 and be the change-makers for the environmental industry.**

# Programming

## Many learning opportunities to increase your knowledge

### Technical Sessions — the heart of the conference!

Each year, experts from all over the world come to share their knowledge and advance the industry at the A&WMA Annual Conference. All presentations, posters, and panels receive a content review and the majority receive a full technical review. The ACE2019 technical program features:

- Over 300 presentations, organized into focused technical tracks on the most current topics, including:
  - Air Measurements and Monitoring
  - Air Pollution Control Technology
  - Oil and Gas
  - Regulatory and Legal Issues
  - Health and Environmental Effects
  - Waste Processing and Waste-to-Energy
  - Power Generation and Renewable Energy
  - Manufacturing, and more.
- The 49th Annual Critical Review presentation on Canada Oil Sands Studies, by Jeffrey R. Brook, Ph.D., M.Sc., University of Toronto, Ontario, Canada
- 35+ expert panels
- 2019 Mini-Symposium on
- Technical posters and dedicated poster session

### Opening Keynote

The Keynote Plenary Session kicks off this spectacular event and features high level industry, government and organizational leaders who share their successes and outlook for the future of the environmental industry. The ACE 2019 Keynote Plenary will feature several high level executives from national and international organizations on the forefront of environmental concerns and compliance.

### Professional Development and Education

For 111 years, education has been the main goal of our Annual Conference. Every aspect of the conference offers opportunities to learn and grow professionally. Certificates of participation for courses and technical sessions are available for qualifying attendees for up to 16 hours.

#### Courses

If you're looking to gain in-depth and hands-on knowledge in the latest environmental topics and tools, A&WMA offers a variety of Professional Development Courses each year, with topics including:

- Air Pollution Controls
- Project Management
- AERMOD
- Environmental Management
- Regulatory and Environmental Law
- Emissions Sampling and Analysis
- Air and Waste Regulatory Compliance Permitting

### Students and Young Professionals

To foster learning and networking, A&WMA encourages students and young professionals to attend and offers many targeted events for these groups, including:

- The Environmental Challenge International Competition where student teams develop solutions to a real-world problem and earn monetary prizes.
- Student Poster Competition
- Best Young Professional and Student Paper Awards
- Student/YP Networking Reception
- Career Development Panel
- Speed Networking
- Mentor Breakfast

ACE also offers the opportunity to donate to our scholarship fund, which has provided over \$150,000 in scholarships to graduate, and post-graduate students over the last five years.

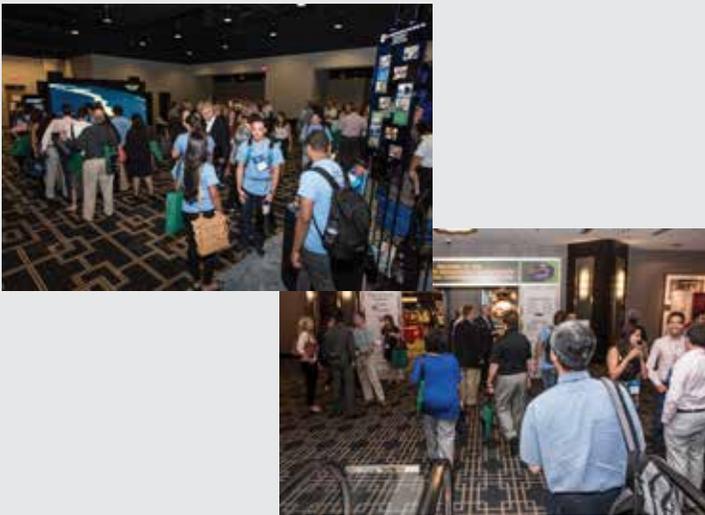

# Conference Highlights

Take advantage of all that ACE has to offer

## Exhibit Hall

With over 200,000 square feet of floor space and 100+ companies, agencies, and organizations, the ACE exhibit is one of the major attractions of the conference, bringing back repeat exhibitors and attendees each year.

With a streamlined schedule and dedicated exhibit hours, exhibitors can make the most of the high traffic times and be able to participate in the conference events and technical sessions. Receptions, breaks, and meals are held in the Exhibit Hall to increase networking.

## Exhibitor Demonstrations

Exhibitors will demonstrate their latest equipment and provide the opportunity for attendees to ask questions and see how the equipment can work for them.

**The (Young Professional) YP Hub** will be a centrally-located lounge and information area that will bring increased traffic and energy to the exhibit hall with planned events such as meet-and-greets, speed networking, product demos and more.

## Events and Networking Opportunities

The Annual Conference & Exhibition also includes many social and networking events for attendees to connect with colleagues, learn new information and expand their network. Attendee favorites include:

- Off-site technical and educational tours
- Welcome Reception
- The Annual Honors & Awards Luncheon
- Women's Professional Development Luncheon
- Exhibit Hall Grand Opening
- The YP/Student Networking Reception

## About the Venue - Quebec City Convention Centre

With a convenient location at Old Québec's doorstep, the Québec City Convention Centre now stands as one of North America's top venues for major events. The Centre was named Best Convention Centre in the World in 2006 by the International Association of Congress Centres (AIPC). It is also AIPC Gold Quality and LEED-EB certified and uses sustainable sourcing as much as possible.

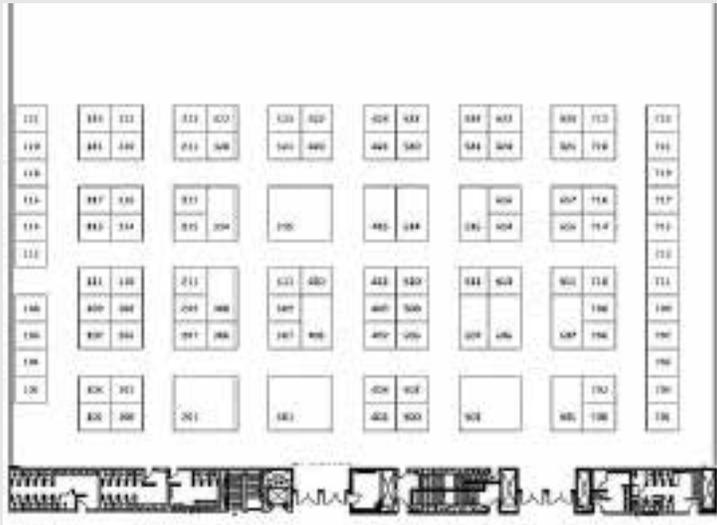

# Exposure Opportunities

Get your company in front of key decision makers

## Exhibit Options

### Exhibit Hall Floor Plan - Quebec City Convention Centre

#### Each 10' x 10' Standard Booth includes:

- 6' draped table, two chairs, wastebasket
- Standard carpet
- 8' back drape and 2' - 3' side rail drape
- Booth identification sign with company name
- Two full conference registrations and two booth personnel badges
- Company listing on the ACE website; 50-word company descriptions included in the Final Program
