

NSR Workshop Presenters

Robynn Andracssek, PE, Air permitting Engineer, Providence Engineering and Environmental Group LLC

Robynn has a BS in mechanical engineering and a MS in environmental engineering, both from the University of Kansas where she currently teaches Air Quality and Engineering Ethics. She has 27 years of experience in air permitting and dispersion modeling and is a licensed professional engineer in 11 states. A frequent author and speaker, she has written for Power Engineering magazine, District Energy magazine, and Engineering News-Records (ENR). Robynn actively engages with the Kansas City community to promote STEM education and engineering ethics to high school and college students.

Colin Campbell, Principal, RTP Environmental Associates

Colin M. Campbell is a Principal with RTP Environmental Associates, Inc., and manager of its North Carolina office. Mr. Campbell has more than 30 years of experience in providing expert air quality consulting and training to regulated industry and to regulatory agencies, primarily with respect to the major NSR programs.

Eric Hiser, Partner, Hiser Joy

Eric Hiser is lead environmental partner at Hiser Joy, PLC. He helps complex industrial facilities comply with environmental regulation at reasonable cost while maintaining operational flexibility for future product and process innovation.

Experience includes nearly 200 PSD, NNSR and Title V permits; SIP/FIP development; and state/federal appeals and enforcement defense. He authors the NSRLaw.com blog on NSR developments.

Gale Hoffnagle, CCM, QEP, Senior Vice President and Technical Director, Air Quality Consulting, TRC Environmental Corporation

Gale has over 50 years of consulting experience specializing in air quality meteorology and modeling. As a senior vice president at TRC, Mr. Hoffnagle leads the Company's Air Quality Consulting Practice and oversees 80 air quality scientists and engineers in performing permitting and consulting work for a wide range of industrial and governmental clients. Throughout his career, Gale has supported the development of comprehensive and site specific plans for firms to meet the requirements of the Clean Air Act Amendments of 1990.

Gale has served as an expert witness in more than 150 environmental matters in 18 states. He has a B.S. and M.S. in Meteorology from New York University and an MBA from Golden Gate University.

Moderated by: Sean Alteri, Director of Environmental Permitting and Regulatory Affairs, Nucor Corporation

In addition to his responsibilities at Nucor, Mr. Alteri's environmental experience includes more than 22 years with the Kentucky Department for Environmental Protection, serving as the Deputy Commissioner and the Director of the Division for Air Quality. During his career, Alteri provided legislative testimony related to air quality issues before the Senate Committee on Environment and Public Works and the House

of Representatives' Committee on Energy and Commerce Subcommittee on Environment.
